Reasons for allowance

1. This communication is in response to applicant's 06/21/2004 amendment in the application of Akram et al. for a "Method and apparatus for simultaneous multilane phone and data services over a single access facility " filed 04/13/1999. The proposed amendments has been entered and made of record. Claims 21-22 have been canceled per applicant's request, and claims 6-7, 20 have been amended. The claims have been amended to better point out and more distinctly claim subject matter comprising the invention.
2. Claims 1-3, 6-9, 11-20, 23 are allowable as evident by applicant's amendment (Claims are renumbered as 1-18 respectively)
3. The following is an examiner's statement of reasons for allowance: The closest prior art of record fails to disclose or suggest one or more bypassing elements positioned between the plurality of telephonic devices and the statistical multiplexor and operative to connect the plurality of telephonic devices either to the at least one call processing element or to the communication network; a control circuitry and a customer premises equipment interface circuitry for providing at least one of the group comprising: D.C. power, indications of on-hook and off-hook conditions, ring current, ring back tones or busy tones; wherein the control circuitry communicates with the at least one call processing element and controls the customer premises equipment interface circuitry, as specifically recited in claims. The instant invention, in combination with the other claimed features, improves upon the Prior Art by providing a method
